PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building scalable web applications using React.js, Next.js, Node.js, and MongoDB-based architectures. Experienced in developing responsive frontend interfaces, integrating RESTful APIs, and collaborating across cross-functional teams to deliver high-impact products. Proficient in state management using Redux and React Context, performance optimization, and third-party service integrations. Passionate about solving complex business problems through clean architecture, reusable components, and modern development practices.

SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Redux Toolkit, React Context API

Backend: Node.js, Express.js, RESTful API Development, MongoDB, Mongoose, JWT Authentication, API Integration, SQL

State Management: Redux Toolkit, React Context API

Development Tools: Git, GitHub, Docker, Postman, Jest, VS Code, CI/CD

Software Development: Performance Optimization, Responsive Design, Figma-to-Code Implementation, Agile Development, Cross-Functional Collaboration

WORK EXPERIENCE

SOFTWARE DEVELOPER – INARA TECHNOLOGIES

2025-Active

- Developed full-stack applications using React.js, Next.js, and Node.js.
- Integrated REST APIs and third-party services to enhance platform capabilities.
- Collaborated with cross-functional teams to deliver scalable, production-ready solutions.
- Contributed to CI/CD processes, troubleshooting, and performance optimization initiatives.

JAVASCRIPT / REACT DEVELOPER – TANGENT TECHNOLOGIES

2023-2025

- Developed responsive SPAs using React.js and modern JavaScript practices.
- Built reusable UI components and integrated RESTful APIs.
- Translated Figma designs into pixel-perfect, mobile-first interfaces.
- Collaborated with backend and QA teams to deliver high-quality features.

PROJECTS

Huubr – Business Directory Platform | MERN Stack (MongoDB, Express.js, React, Next.js, Node.js)

- Contributed to a MERN-based business directory platform serving 800+ business profiles.
- Developed RESTful APIs and integrated dynamic search, filtering, and profile management features.
- Built reusable React/Next.js components to deliver responsive, SEO-optimized user experiences.
- Improved Core Web Vitals (LCP, CLS) and collaborated with cross-functional teams to deliver production-ready features.

VATT – Government Education Portal | React.js, JavaScript, Dashboard Development

- Integrated RESTful APIs and implemented dynamic search, filtering, and profile management features.
- Built interactive dashboards to visualize teacher training metrics and educational data.
- Integrated REST APIs and implemented validated forms to streamline administrative workflows.
- Collaborated with cross-functional teams to deliver scalable, user-centric solutions.

EDUCATION

2023

Bachelor of Science in Computer Science

FAST National University of Computer and Emerging Sciences (FAST-NUCES)
